SAFe® Executive Briefing
One Half Day

Paradigm Innovations

Overview

Scaled Agile Framework (SAFe) is all about guiding enterprises in scaling lean and agile practices. It promotes alignment, collaboration and delivery across large numbers of agile teams. Developed by practitioners, SAFe leverages three primary bodies of knowledge: agile software development, lean product development, and systems thinking.

During this half-day workshop, the executives would understand the SAFe® overview for Senior Executives in the form of executive briefing
